

New From Paukner Metal Products

PMP is Pleased to Announce our New Model Unit Heaters

Built for Quality and Performance, these *New Model* unit heaters offer Better Performance, Heavier Gauge Construction, and increased installation flexibility. All in a much nicer looking package. Most sizes are equipped with speed adjustable motors giving you the ability to fine tune the balance between performance and efficiency. These units are another excellent way to convert your hot water heat to forced air. These Unit Heaters also work excellent in combination with hot water floor heat. This combination gives you the comfort of floor heat as well as the quick recovery of forced air all from the same heating system. **All New Model PMP unit heaters can be easily converted from a right hand water supply to a left hand water supply.** Units are designed to be used with a 110 volt thermostat. Thermostat and speed control sold separately.

New Model Unit Heater Specifications

Model	BTUs EWT-200°	BTUs EWT-180°	CFM - Amps	Speed controllable	Water lines=ID	HP	Shipping weight
